MEMORANDUM

To: The File

From: Stephen J. Roberson, Environmental Analyst, BWSC/SMP *SJR*

Date: February 10, 1999

Subject: MIDDLETON - Former Adhesives Manufacturer, 40 School Street
Release Tracking No. 3-0168
Water Service on School Street and Averill Road

SEMS DocID

594212

On February 10, 1999 at approximately 9:10 a.m., the writer placed a telephone call to Leo Cormier, Health Agent for the town of Middleton, in order to obtain information on public and private water usage in the immediate vicinity of the former American Glue & Resin Company site in Middleton. Mr. Cormier informed the writer that public water for the area is supplied by the Danvers Water Department. Mr. Cormier was only aware of two properties on School Street that are currently served by public water: the Pocahontas Water Company located at 42 School Street, and a private residence at 34 School Street (these properties abut the site). Mr. Cormier promised to fax the writer a list of current residences on School Street and Averill Road (attached).

The writer then called Ray Young at the Danvers Water Department to request this information. Mr. Young called back within an hour and informed the writer that the Water Department has four customers on School Street, and no customers on Averill Road. The four customers identified were numbers 4, 34, 41 and 42 School Street. It may be inferred that the remaining residential properties identified on the attached printout get their water from private wells.

To: Steve Robertson, DEP

2-10-99

From: Board of Health, Middleton, Ma.
